BFA Programs in DESIGN/ TECHNOLOGY

WORK YOUR BACKSTAGE MAGIC

RESULTS THAT SHOW

"My career as a designer and engineer started as a student at TTS. The network I had available to me, from year one, helped me feel confident about transitioning into the professional industry!"

— Connor Wang,
Sound Designer, Class of 2017

THE
**THEATRE
SCHOOL**
AT DePaul University

CREATIVE & COLLABORATIVE

THE SHOW CAN'T GO ON WITHOUT YOU

As a BFA Design/Technology student, you'll develop the behind-the-scene skills you need to work in the industry you love. All of our design/technology majors allow you to broaden your artistic expression through practical application.

PICK YOUR PASSION

- » Costume Design
- » Costume Technology
- » Lighting Design
- » Projection Design
- » Scene Design
- » Sound Design
- » Stage Management
- » Theatre Technology
- » Wig and Makeup Design & Technology

PROFESSIONAL TRAINING MEETS PERSONAL ATTENTION

Hands-on is an understatement. As a student in one of our design/tech programs, you'll visualize, create, and develop daily. Even better, you'll do it in tandem with a faculty filled with industry professionals.

WHAT TO EXPECT

After completing foundational courses, such as Principles of Design and History of Dramatic Literature, you'll move on to even more rigorous major-specific curriculum. By your fourth year, you will have a strong, professional portfolio fueled by the passion and experiences you accumulate at DePaul University.

LEARN WHILE YOU DO

Success in theatre and entertainment is all about putting what you learn into practice. We'll give you plenty of chances to do that – on campus and off.

GET INVOLVED: 30+ TTS productions every year
